

ICOM INSTRUCTIONS

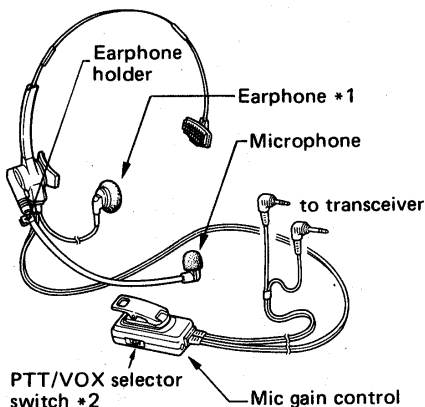

HEADSET

HS-51

Thank you for purchasing the HS-51 HEADSET. The HS-51 allows you hands-free operation with Icom handheld transceivers except IC-2, 3, 4A/AT/E.

Please read these instructions thoroughly before operating the HS-51.

DESCRIPTION

*1 Earphone

Place the earphone in your ear or attach it to the earphone holder.

*2 PTT/VOX selector switch

Set the switch to your desired position.

1. PTT operation

Use with the PTT switch.

2. VOX operation

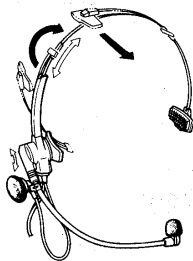

Speak into the microphone using your normal voice level without using the PTT switch.

3. TOT (Time-Out Timer) operation

Operates as a "one touch PTT." Push the PTT switch once to transmit and push again to receive.

After about 2 to 4 minutes for transmit, the transceiver automatically returns to receive mode, preventing continuous transmissions.

ASSEMBLY

OPERATION

- 1) Assemble the headset as described at left.
- 2) Connect the two plugs to the transceiver.
- 3) Adjust the mic gain control to a suitable level.
- 4) Set the PTT/VOX selector switch to a desired position.
- 5) Operate the transceiver using the HS-51 in your selected way.
